From the world of Good  
Night Stories for Rebel  
Girls comes a story based  
on the exciting  
adventures of Ada  
Lovelace: one of the  
world's first computer  
programmers. Growing up  
in nineteenth century  
London, England, Ada is  
curious about absolutely  
everything. She is  
obsessed with machines  
and with creatures that  
fly. She even designs her  
own flying laboratory!

According to her mother, Ada is a bit too wild, so she encourages Ada to study math. At first Ada thinks: Bleh! Who can get excited about a subject without pictures? But she soon falls in love with it. One day she encounters a mysterious machine, and from that moment forward Ada imagines a future full of possibility—one that will eventually inspire the digital age nearly two hundred years later. *Ada Lovelace Cracks the Code* is the story of a pioneer in the computer sciences, and a testament to women's invaluable contributions to STEM throughout history. Includes additional text on Ada Lovelace's lasting legacy, as well as educational activities designed to teach simple coding and mathematical concepts.

In the vein of *#Girlboss* and *Nice Girls Don't Get the Corner Office*, discover how to thrive at work from the head of the Global Innovation Coalition for Change at UN Women with this "passionate, practical roadmap for addressing inequality and finally making our workplaces work for women" (Arianna Huffington). For years, we've been telling women that in order to succeed at work, they have to change themselves first—lean in, negotiate like a man, don't act too nice or you'll never get the corner office. But after sixteen years working with major Fortune 500 companies as a gender equality expert, Michelle King has realized one simple truth—the tired advice of fixing women doesn't fix anything. The truth is that workplaces are gendered; they were designed by men for men. Because of this, most organizations unconsciously carry the idea of an "ideal worker," typically a straight, white man who doesn't have to juggle work and family commitments. Based on King's research and exclusive interviews with

major companies and thought leaders, *The Fix* reveals why denying the fact that women are held back just because they are women—what she calls gender denial—is the biggest obstacle holding women back at work and outlines the hidden sexism and invisible barriers women encounter at work every day. Women who speak up are seen as pushy. Women who ask for a raise are seen as difficult. Women who spend hours networking don't get the same career benefits as men do. Because women don't look like the ideal worker and can't behave like the ideal worker, they are passed over for promotions, paid less, and pushed out of the workforce, not because they aren't good enough, but because they aren't men. In this fascinating and empowering book, King outlines the invisible barriers that hold women back at all stages of their careers, and provides readers with a clear set of takeaways to thrive despite the sexist workplace, as they fight for change from within. Gender equality is not about women, and it is not about men—it is about making workplaces work for everyone.

Together, we can fix work, not women.

From the world of Good Night Stories for Rebel Girls comes a historical novel based on the life of Dr. Wangari Maathai, the Nobel Peace Prize-winning activist and environmentalist from Kenya. Wangari lives in the lush, green, land of rural Kenya where the soil is perfect for planting, the trees tower into the sky, and the streams are full of mysterious creatures. All day, she plays beneath her favorite fig tree, and at night she gathers around the fire with her family to listen to her mother's stories. Then Wangari grows up and goes away to school, and things start changing at home. Farmers chop down the trees. Landslides bury the stream. The soil becomes overworked and dry, and nothing will

grow. People go hungry. After all her studies, Dr. Wangari Maathai realizes there is a simple solution to these problems: plant a forest full of trees. Dr. Wangari Maathai Plants a Forest is the story of environmentalist and activist Dr. Wangari Maathai, who became the first African woman to receive the Nobel Peace Prize.
