Telepatients using connected objects to collect time-sensitive data about their health are not neutral carriers of diagnosable symptoms. Patients are persons, or personal beings as well as co-carers, whose personal experience, history and know-how must be acknowledged in time-sensitive telecare practices. Such practices require a relational ethics, inspired by medical ethics and an ethics of virtues, focusing on vulnerability and emotional health, to oversee telecare good practices, define a new therapeutic alliance compliant with patients' values, and reconcile the technical and human sides of telemedicine. The ethical challenges of telemedicine in chronic patients today The key features of a person-centered and relational ethics in telemedical settings The concepts of "emotional health care and

"chrono-sensitivity of the "connected sick body  
*Transactions of the Seventh International Congress of Hygiene and Demography, London, August, 10th-17th, 1891 v. 1* JHU Press  
 Long considered the essential guide to Joyce's famously difficult work, Roland McHugh's Annotations to "Finnegans Wake" provides both novice readers and seasoned Joyceans with a wealth of information in an easy-to-use format uniquely suited to this densely layered text. Each page of the Annotations corresponds directly with a page of the standard Viking/Penguin edition of Finnegans Wake and contains line-by-line notes following the placement of the passages to which they refer. The reader can thus look directly from text to notes and back again, with no need to consult separate glossaries or other listings. McHugh's richly detailed notes distill decades of scholarship, explicating foreign words, unusual English connotations and colloquial expressions, place names, historical events, song titles and quotations, parodies of other texts, and Joyce's diverse literary and popular sources. The third edition has added material

reflecting fifteen years of research, including significant new insights from Joyce's compositional notebooks (the "Buffalo Notebooks"), now being edited for the first time.

LUCCA RACONTE Strelbytskyy Multimedia Publishing

With the aim of helping people to keep healthy animals, this book covers a wide range of things that affect the health of livestock, from diarrhoea to rinderpest, and from traditional remedies to the use of modern medicine. The text also includes advice on care, feeding, and handling of animals.

Jules Verne, a 19th-century French author, is famed for such revolutionary science-fiction novels as "Around the World in Eighty Days" and "Twenty Thousand Leagues Under the Sea". He has sometimes been called the "Father of Science Fiction", a title that has also been given to H. G. Wells and Hugo Gernsback. In all, Verne authored more than 60 books (most notably the 54 novels comprising the "Voyages Extraordinaires"), as well as dozens of plays, short stories and librettos. He conjured hundreds of memorable characters and imagined countless innovations years before their time, including the submarine, space travel, terrestrial flight and deep-sea exploration. Verne is generally considered a major literary author in France and most of Europe, where he has had a wide influence on the literary avant-garde and on surrealism. Verne has been the second most-translated author in the world since 1979, ranking between Agatha Christie and William Shakespeare. Some of the works appear only in their original French texts, due to copyright restrictions. On the basis of the archives of the 167 Catholic religious posted to Polynesia from 1834 to 1914, we are introduced to the everyday reality of the nineteenth-century missionary, through his early education, his arrival in the Pacific world, his harsh conditions of existence and his cultural and economic activities. Part of contemporary Polynesia is also illuminated by this study, since this handful of religious left a legacy of social models which have continued into present-day use.

**Transactions of the Seventh [i.e., Ninth] International Congress of Hygiene and Demography, London, August, 10th-17th, 1891** Lulu.com

Great-granddaughter of Minerve, first woman of the Guadeloupean branch of the Lougandor family to be freed from slavery in 1848, the elderly Telumée tells the story of her own difficult life and that of her ancestors. It is a poor black woman's tale of heroic survival, set in the early 20th century, harsh agrarian environment of a Caribbean island. Through the richly imaged narration of a constantly evolving, cultural significant and always entertaining saga, the author leads the reader into her native West Indian realm of legends, magic, folkloric wisdom and traditional reverence for the elderly and the past. Her protagonist, Telumée, embodies the innate strength and nobility of women in general and of black Caribbean women in particular. Published in 1972, this book received *Elle* magazine's literary prize. This edition reflects the editor's personal acquaintance with the author, and her country. It provides a synthesis of the latest critical studies, and a thorough interpretation of Creole terms, symbolic imagery and a unique cultural background.

Et le lendemain, tout avait changé. Le haricot avait germé, il n'y avait plus de peau dans le lait, plus de petits cailloux dans les sandalettes, tous les gars du monde se donnaient la main,... enfin, presque.
