*The Roman Stoics* Penguin UK

Fans of intrigue, action, humor, and nonstop surprises are guaranteed an adventure unlike any other in Tesla's Attic, Book One of the Accelerati Trilogy, for readers of "Rick Riordan's Kane Chronicles or Kenneth Oppel's Airborne" (Booklist). After their home burns down, fourteen-year-old Nick, his younger brother, and their father move into a ramshackle Victorian house they've inherited. When Nick opens the door to his attic room, he's hit in the head by a toaster. That's just the beginning of his weird experiences with the old junk stored up there. After getting rid of the odd antiques in a garage sale, Nick befriends some local kids--Mitch, Caitlin, and Vincent--and they discover that all of the objects have extraordinary properties. What's more, Nick figures out that the attic is a strange magnetic vortex, which attracts all sorts of trouble. It's as if the attic itself has an intelligence . . . and a purpose. Ultimately Nick learns that the genius Nikola Tesla placed the items--his last inventions--in the attic as part of a larger plan that he mathematically predicted. Nick and his new friends must retrieve everything that was sold at the garage sale and keep it safe. But the task is fraught with peril--in addition to the dangers inherent in Tesla's mysterious and powerful creations, a secret society of physicists, the Accelerati, is determined to stop Nick and alter destiny to achieve its own devious ends. It's a lot for a guy to handle, especially when he'd much rather fly under the radar as the new kid in town. Read more of the Accelerati Trilogy: Edison's Alley Hawking's Hallway

**Toto notus in orbe** Harvard Common Press

Researcher and thought leader Dr. Brené Brown offers a powerful new vision in *Daring Greatly* that encourages us to embrace vulnerability and imperfection, to live wholeheartedly and courageously. 'It is not the critic who counts; not the man who points out how the strong man stumbles, or where the doer of deeds could have done them better. The credit belongs to the man who is actually in the arena, whose face is marred by dust and sweat and blood; who strives valiantly; . . . who at best knows in the end the triumph of high achievement, and who at worst, if he fails, at least fails while daring greatly' -Theodore Roosevelt Every time we are introduced to someone new, try to be creative, or start a difficult conversation, we take a risk. We feel uncertain and exposed. We feel vulnerable. Most of us try to fight those feelings - we strive to appear perfect. Challenging everything we think we know about vulnerability, Dr. Brené Brown dispels the widely accepted myth

that it's a weakness. She argues that vulnerability is in fact a strength, and when we shut ourselves off from revealing our true selves we grow distanced from the things that bring purpose and meaning to our lives. *Daring Greatly* is the culmination of 12 years of groundbreaking social research, across the home, relationships, work, and parenting. It is an invitation to be courageous; to show up and let ourselves be seen, even when there are no guarantees. This is vulnerability. This is daring greatly. 'Brilliantly insightful. I can't stop thinking about this book' -Gretchen Rubin Brené Brown, Ph.D., LMSW is a #1 New York Times bestselling author and a research professor at the University of Houston Graduate College of Social Work. Her groundbreaking work was featured on Oprah Winfrey's Super Soul Sunday, NPR, and CNN. Her TED talk is one of the most watched TED talks of all time. Brené is also the author of *The Gifts of Imperfection* and *I Thought It Was Just Me (but it isn't)*.

This dictionary results from the titanic work by Rev. James Wood who collected quotations from ancient and modern English and foreign sources and put them in alphabetic order. The dictionary contains phrases, mottoes, maxims, proverbs, definitions, aphorisms, and sayings of different prominent people.

**A Hall of Mirrors** Ohio University Press

Originally published in 1888, this book contains the Latin text of the first book of Horace's *Epistulae*. Distinguished classicist Shuckburgh includes a biography of the poet and commentaries on each of the 20 poems in the book, as well as a brief synopsis of each letter. This book will be of value to anyone interested in Horace or in Augustan poetry more generally.

*The Optical Unconscious* is a pointed protest against the official story of modernism and against the critical tradition that attempted to define modern art according to certain sacred commandments and self-fulfilling truths. The account of modernism presented here challenges the vaunted principle of "vision itself." And it is a very different story than we have ever read, not only because its insurgent plot and characters rise from below the calm surface of the known and law-like field of

modernist painting, but because the voice is unlike anything we have heard before. Just as the artists of the optical unconscious assaulted the idea of autonomy and visual mastery, Rosalind Krauss abandons the historian's voice of objective detachment and forges a new style of writing in this book: art history that insinuates diary and art theory, and that has the gait and tone of fiction. The Optical Unconscious will be deeply vexing to modernism's standard-bearers, and to readers who have accepted the foundational principles on which their aesthetic is based. Krauss also gives us the story that Alfred Barr, Meyer Shapiro, and Clement Greenberg repressed, the story of a small, disparate group of artists who defied modernism's most cherished self-descriptions, giving rise to an unruly, disruptive force that persistently haunted the field of modernism from the 1920s to the 1950s and continues to disrupt it today. In order to understand why modernism had to repress the optical unconscious, Krauss eavesdrops on Roger Fry in the salons of Bloomsbury, and spies on the toddler John Ruskin as he amuses himself with the patterns of a rug; we find her in the living room of Clement Greenberg as he complains about "smart Jewish girls with their typewriters" in the 1960s, and in colloquy with Michael Fried about Frank Stella's love of baseball. Along the way, there are also narrative encounters with Freud, Jacques Lacan, Georges Bataille, Roger Caillois, Gilles Deleuze, and Jean-François Lyotard. To embody this optical unconscious, Krauss turns to the pages of Max Ernst's collage novels, to Marcel Duchamp's hypnotic Rotoreliefs, to Eva Hesse's luminous sculptures, and to Cy Twombly's, Andy Warhol's, and Robert Morris's scandalous decoding of Jackson Pollock's drip pictures as "Anti-Form." These artists introduced a new set of values into the field of twentieth-century art, offering ready-made images of obsessional fantasy in place of modernism's intentionality and unexamined compulsions.

Roman Stoic thinkers in the imperial period adapted Greek doctrine to create a model of the self that served to connect philosophical ideals with traditional societal values. The Roman Stoics—the most prominent being Marcus Aurelius—engaged in rigorous self-examination that enabled them to integrate philosophy into the practice of living. Gretchen Reydam-Schils's innovative new book shows how these Romans applied their distinct brand of social ethics to everyday relations and responsibilities. The Roman Stoics reexamines the philosophical basis that instructed social practice in friendship, marriage, parenting, and community. From this analysis emerge Stoics who were neither cold nor detached, as the stereotype has it, but all too aware of their human weaknesses. In a valuable contribution to current discussions in the humanities on identity, autonomy, and altruism, Reydam-Schils ultimately conveys the wisdom of Stoics to the citizens of modern society.

#### Choose Your Own Adventure #8 University of Oklahoma Press

Your birth chart is a snapshot of the sky taken at the moment and place of your birth, one that reflects your character, personality, strengths, and challenges. But the moment after that picture was taken, the planets moved on—some quickly, some very slowly. Astrologers call the moving planets "transits," and by comparing their movements to your birth chart you can gain a complete view of how best to prepare for challenges, meet opportunities, and stay grounded in a constantly-changing world. In *Astrological Transits*, astrologer April Elliott Kent will guide you through the best ways to make the most of your birth chart. Learn how to make the most of good transits and harness and transform the energy of "bad" ones. You'll also understand planetary cycles and

anticipate your own transits. Finally, you'll know how to read planetary return charts, work with planetary retrogrades, and use eclipses to recognize major patterns and turning points in your life. If you are comfortable reading a birth chart, you are ready to move your chart into the future using transits. Instructions, tables, and worksheets will make tracking your transit cycles simple and exciting!

#### **Queer Genealogies in Transnational Barcelona** Penguin UK

Rheinhardt, a disk jockey and failed musician, rolls into New Orleans looking for work and another chance in life. What he finds is a woman physically and psychically damaged by the men in her past and a job that entangles him in a right-wing political movement. Peopled with civil rights activists, fanatical Christians, corrupt politicians, and demented Hollywood stars, *A Hall of Mirrors* vividly depicts the dark side of America that erupted in the sixties. To quote Wallace Stegner, "Stone writes like a bird, like an angel, like a circus barker, like a con man, like someone so high on pot that he is scraping his shoes on the stars."

#### *Life-changing Magic* Choose Your Own Adventure

The mega bestselling book that started the heaven publishing phenomenon is now a major motion picture starring Hayden Christensen and Kate Bosworth and produced by Michael Polish. Don Piper's incredible true story continues to expand its reach to more people than ever before. After a semi-truck collided with Don Piper's car, he was pronounced dead at the scene. For the next ninety minutes, he experienced the glories of heaven. Back on earth, a passing minister felt led to stop and pray for the accident victim even though he was told Piper was dead. Miraculously, Piper came back to life, and the pleasure of heaven was replaced by a long and painful recovery. This special edition of Don's life-changing story includes a new preface from Don about the making of the movie, plus a personal update on the impact the book has had on him, his family, and the millions who have already heard his story. It also includes a note from the publisher, stories from readers, and Scriptures and quotations on heaven.

#### Single Parents and Their Children Thomas Nelson

The year is 2045. Civil wars and foreign attacks have split the U.S into three hostile political areas. Can you make it home from your secret mission in time to help? A once-proud country governed by freedom is torn apart. One section, Dorado, dominates the others with harsh police-state tactics. You are from Turtalia, a new democracy, and you are returning there with important information about Doradan's plans to invade. Two others, Matt and Mimla, join you in escaping to Turtalia. The Doradan underground has helped the three of you get as far as Albuquerque, but now you are on your own. They're closing in on us, Matt says tensely. I can feel it. There is no sign of the Secret Police on the horizon; but you know they could appear at any moment. They are relentless killers. If you decide to follow Matt's suggestion to return to town to avoid capture, turn to page 10. YOU

**Environmentalism** Cambridge University Press

An acclaimed historian of the environment, Ramachandra Guha in this book draws on many years of research in three continents. He details the major trends, ideas, campaigns and thinkers within the environmental movement worldwide. Among the thinkers he profiles are John Muir, Mahatma Gandhi, Rachel Carson, and Octavia Hill; among the movements, the Chipko Andolan and the German Greens. *Environmentalism: A Global History* documents the flow of ideas across cultures, the ways in which the environmental movement in one country has been invigorated or transformed by infusions from outside. It interprets the different directions taken by different national traditions, and also explains why in certain contexts (such as the former Socialist Bloc) the green movement is marked only by its absence. Massive in scope but pointed in analysis, written with passion and verve, this book presents a comprehensive account of a significant social movement of our times, and will be of wide interest both within and outside the academy. For this new edition, the author has added a fresh prologue linking the book's themes to ongoing debates on climate change and the environmental impacts of global economic development.

**The Key to Personal Peace** Pan Macmillan

Examines the concept of rhetorical invention from an affirmative, nondialectical perspective.

The reader assists Jane and Michael in determining whether a spooky stone house is really cursed.

By choosing specific pages, the reader determines the outcome of the plot.

*501 French Verbs* University of New Mexico Press

Richard L. Nostrand interprets the Hispanos' experience in geographical terms. He demonstrates that their unique intermixture with Pueblo Indians, nomad Indians, Anglos, and Mexican Americans, combined with isolation in their particular natural and cultural environments, have given them a unique sense of place - a sense of homeland. Several processes shaped and reshaped the Hispano Homeland. Initial colonization left the Hispanos relatively isolated from cultural changes in the rest of New Spain, and gradual intermarriage with Pueblo and nomad Indians gave them new cultural features. As their numbers increased in the eighteenth century, they began to expand their Stronghold outward from the original colonies.
