Abdul Khaleq teaches at a rural college nearing collapse in newly independent Bangladesh. When a writer friend asks him to chronicle his childhood, Abdul retreats to an enchanting world in the suburbs of Calcutta. He

remembers the girl who spoke to fish and birds, the girl he first loved. He also recalls the stream of visitors who came to his parents' door in those days, some bearing want, some malice, and others, generosity and wisdom. He plummets into despondency when memories return him to a time when Hindu-Muslim tensions in

undivided Bengal eclipsed his innocence. Abdul's nostalgia enrages his wife Rekha who resents his lack of ambition and aloofness. Prodded by the village physician Doctor Narhari, the couple embark on a boat ride that forces them to confront their discord and desires, and plumb the roots of Abdul's alienation. Published first in 1977, Mahmudul Haque's cult novel, *Black Ice*, probes with utmost sensitivity the invisible scars bequeathed to the inheritors of the losses of Partition.

Poetry. "In BLACK ICE: POEMS you will discover Barbara Purcell's charged landscape of edgy recollections and journeys. . . she writes straightforwardly of bulimia, nude modeling, love

betrayed, and early warning signs of things amiss. There are no fake notes here"- Colette Inez. "Barbara Purcell puts 'Directness' back into poetry, which is not to say she lacks metaphors, but rather they're made even more powerful by her allegiance to the truth. She's able to achieve something unique among writers--self-expression that never sounds confessional"-- Hal Sirowitz. The author received her B.A. from Skidmore College in 2001 and currently lives in New York City.

The classic memoir that shocked, outraged, and ultimately changed the way America looked at the civil rights

movement and the black experience. With a preface by Ishmael Reed • “As with Malcolm X, Cleaver’s book is a spiritual autobiography. An odyssey of a soul in search of itself, groping toward a personal humanism which will give meaning to life.”—The Progressive By turns shocking and lyrical, unblinking and raw, the searingly honest memoirs of Eldridge Cleaver are a testament to his unique place in American history. Cleaver writes in *Soul on Ice*, “I’m perfectly aware that I’m in prison, that I’m a Negro, that I’ve been a rapist, and that I have a Higher Uneducation.” What Cleaver shows us, on the pages of this classic autobiography, is how much he was a

man.

In 1972 Lorene Cary, a bright, ambitious black teenager from Philadelphia, was transplanted into the formerly all-white, all-male environs of the elite St. Paul's School in New Hampshire, where she became a scholarship student in a "boot camp" for future American leaders. Like any good student, she was determined to succeed. But Cary was also determined to succeed without selling out. This wonderfully frank and perceptive memoir describes the perils and ambiguities of that double role, in which

failing calculus and winning a student election could both be interpreted as betrayals of one's skin. *Black Ice* is also a universally recognizable document of a woman's adolescence; it is, as Houston Baker says, "a journey into selfhood that resonates with sober reflection, intellignet passion, and joyous love."

The Colored Hockey League of the Maritimes was formed in 1895 in Halifax, Nova Scotia, Canada. Comprised of the sons and the grandsons of runaway American slaves, the league helped pioneer the sport of ice hockey, changing this winter game from the primitive "gentleman's past-time" of the Nineteenth Century to the to the modern fast

moving game of today. In an era when many believed Blacks could not endure cold, possessed ankles too weak to effectively skate, and lacked the intelligence for organized sport, these men defied the established myths. The Colored League was one of the most complex sports organizations ever created and was lead by Baptist ministers and church laymen. Natural leaders and proponents of Black Pride, these men represented a concept in spots never before seen. Their rule book was The Bible. Their game book, the coded words and oral history derived from the experiences of American slavery and the Underground Railroad. Their

strategy, the principles and teachings of American Black leader Booker T. Washington (the founder of the Tuskegee Institute) and a believer in the concept of racial equality through racial separation. Twenty-five years before the Negro Baseball Leagues in the United States, and twenty-two years before the birth of the National Hockey League, the Colored League would emerge as a premier force in Canadian hockey and supply the resilience

necessary to preserve a unique culture which exists to this day. Unfortunately their contributions were conveniently ignored, or simply stolen, as White teams and hockey officials, influenced by the Black league, copied elements of the Black style or sought to take self-credit for Black hockey innovations. Seven years of research has gone into this book. This is the first book ever written on the Colored Hockey League of the Maritimes.
