'A landmark

manifesto' New York Times The ground-breaking, international bestseller – with over two million copies sold – that launched a new movement to empower women everywhere. Sheryl Sandberg's Lean In has ignited global conversations about gender roles and ambition. Ask most women whether they have the right to equality at work and the answer will be a resounding yes. But ask

the same woman if they'd feel confident asking for a raise, promotion, or equal pay, and reticence can creep in. In Lean In, Sheryl Sandberg – Facebook COO and one of Fortune magazine's Most Powerful Women in Business – draws on her own experience of working in some of the world's most successful businesses to show how women can empower themselves,

unlock top leadership roles and achieve their full potential. *Pitman's English and Shorthand Dictionary, Based on the Original Work of Sir Isaac Pitman* Legare Street Press  
 This book presents 17 selected papers from the 4th International Graphonomics Society Conference, held at the University of Trondheim (Norway) in July 1989. It focusses on different aspects of automatic processing of handwriting

by computer. The book is divided into three sections. The first one surveys the research works done on automatic signature verification over the last 25 years. The second section deals with problems related to the design of on-line cursive script recognition and the implementation of this technology into an electronic pen pad. The third section focusses on the integration of

contextual knowledge in these systems.
